### VII. **OPERATIONS**

#### **A. EVENT SCHEDULE:**

1. Schedule times are cars on course.
  - a. For Qualifying, the session clock starts when cars are released from Grid.
  - b. Race session clock starts when the first car crosses the Start/Finish control line after the scheduled pace lap.
2. Actual session start times may be delayed from the published schedule due to unforeseen circumstances during the event. It is the driver's responsibility to listen to the PA system and pay attention to activity on track.

**B. RUN GROUPS:** The schedule or run groups may only be changed (or start times advanced) at the discretion of the Race Director, with concurrence by the Event Chair, depending on pre-race entry counts or as needed to accommodate situations during the event.

#### **C. DRIVERS' MEETING:**

1. A mandatory Drivers' Meeting will be held at the end of the first Qualifying session for each group in Impound. If you exit the circuit prior to the end of session, please make sure you attend the meeting.
2. The Race Director will consider requests for split starts at the Drivers' Meeting.

**D. RESTRICTED RADIO FREQUENCIES:** Race control frequencies are 152.3450 and 157.6050. Please do not use these for team communications.

**E. CANCELLATION:** If part of an event is cancelled for reasons of safety or forces beyond our control as provided by GCR Appendix B.1.2.A., points will be awarded based on race grids.

**F. ADDITIONAL OPERATIONAL ITEMS:** Additional information pertaining to drivers can be found in the following locations of the GCR:

### VIII. **GRID PROCEDURE**

- A. FIRST SESSION/QUAL 1:** Starting positions will be grouped by class in order by fastest recorded track record and then by each driver's post mark/timestamp of their Entry form.
- B. QUAL 2:** Starting positions for Qual 2 will be determined by the fastest time recorded for each car from the preceding qualifying or race sessions.
- C. RACE 1:** Starting positions for Race 1 will be determined by the fastest time recorded for each car from the preceding qualifying session(s).
- D. RACE 2:** Starting positions for Race 2 race will be determined by the fastest time recorded for each car during the preceding qualifying sessions or the fastest lap during Race 1.

### IX. **QUALIFYING & RACES**

#### **A. QUALIFYING PROCEDURES:**

1. For all qualifying sessions, the Clerk of the Course may elect to have Stations 1 through 11 display Double Yellow flags on the out-lap. All remaining stations will be no flag (i.e. green track conditions). These stations will drop the flag once the first car passes the Start/Finish line unless there is an incident requiring such flag condition.
2. Cars going considerably slower and/or holding up other cars may be subject to penalty. Weaving, scrubbing tires and/or impeding the progress of other drivers under green flag conditions is considered blocking and is subject to penalty. As a practical matter, this means that any car involved in a slow train utilizing the racing line is liable for impeding a faster car, even if actual impeding occurs elsewhere in the train.

- B. 115% RULE:** A driver not qualifying within a maximum of 115% of the recognized track record of their class must obtain permission from the Race Director to race. In the case of unusual circumstances, the Race Director can waive this rule for the entire event. A driver who is unable to maintain a safe pace during the race may be black flagged.
