Notes: 1st Place determined on Tie Breaker Question - corrected odometer readings closest to Official Mileage at the end of the rally
The Rallymaster goofed up big time and left the answers to the observation questions on the Route Instructions.
The 3rd place car was honest and left out an answer they did not see and gave their incorrect interpretation to another question (honest people still exist!)

Note: The 3rd place car started the event without a navigator, never reached the end of the odometer calibration leg or any of the 4 check-points
There are no DNFs in RoadRally, scored with maximum penalties at the 4 controls.
The 1st place car was entered in L class, but being the only entrant in equipped classes, was melded into the Open Tour class with no factors applied.
